### Why Study at Intrax?

Intrax offers English and Professional Skills classes to students from over 40 countries at our accredited centers in San Francisco, San Diego and Chicago. At Intrax, students meet and talk with the American English Conversation interns (ECIs) in the classroom every week and spend 75% of class time focused on developing their speaking skills. We help students develop their careers with our professionally oriented courses and the opportunity gain experience in a U.S. company. These are just a few of the reasons why 96% of our students would recommend Intrax to their friends.

### General English

Our General English course is for students who want to learn practical English for everyday life. Students will learn English more quickly and improve their speaking skills by discussing interesting topics, doing exciting activities, and talking to Americans in-class every week. We offer ten levels, from beginner to advanced so students can study with others in their same skill level. Classes start every Monday.

### TOEFL and Cambridge Test Preparation

Test Preparation courses are for students who want to develop their academic English skills, prepare for university-level course work, and improve their test score. We help students prepare for their exam with weekly practice tests. Students can take their final TOEFL exam at Intrax since all of our schools are authorized TOEFL ibt test centers. For students who want to continue on to university after they finish their Intrax program we have agreements with local universities in Chicago, San Francisco and San Diego. Specific agreement details vary but can include a TOEFL waiver and conditional letter of acceptance. University counseling is available at all centers as well. TOEFL classes start every Monday. See [9bfc`a Ybh 5\[fYYa Ybh Z\]Y`Y`](#) for Cambridge start dates. Minimum level of English required 7.

### Business English

Our Business English course is for students who want to learn English for an international, English-speaking workplace. Students will learn business-related vocabulary and improve their grammar, speaking, listening and writing skills for use in any professional environment. Classroom exercises include discussions of real business case studies, writing professionally, practicing how to answer a business phone call in English and developing effective negotiation and presentation skills. Classes start every Monday. Minimum level of English required 5.

### Professional Certificates

Students who want a program where they can apply their advanced English skills to team projects, build a portfolio and develop their career will benefit from these courses. Classes are taught by business professionals not ESL teachers, which makes the learning experience more challenging and dynamic. Students will learn business concepts, interact and talk with professionals from successful companies, learn from visits to U.S. companies and apply their knowledge to business case studies. We offer certificates in Marketing & Advertising, Business Management and Project Management. Classes have specific start dates and can be taken individually or consecutively. Minimum level of English required 7.

### Career Preparation Activity

Practice English and work toward your career goals by spending time in a U.S. company. Our Career Preparation Activity gives students the opportunity to study and gain professional experience outside the classroom. Students will be able to practice their skills with Americans in the workplace, use their skills on projects important to the host company and build their confidence. This activity requires a minimum of 12 weeks and has specific start dates. Before students start their placement, they must complete a 4 week elective course, the host company placement begins the following week. Students are required to be on an F-1 visa, at least 18 years of age and a minimum of Level 6 at Intrax.

# Intrax Unlimited Package

## SAVE UP TO 20%!

### Benefits:

- Great for students who want to participate in Professional Certificates and Career Preparation Activity
- Great for students who don't know which program they want to do before they arrive at Intrax and want the flexibility to try many different programs
